## Beamng drive game jolt

Forza Horizon 2 is ridiculous fun, beautiful the look and smooth to play, so there's no surprise really that it's to speed its way onto our list. Set in various locations around Europe, Horizon 2 maintains the free-driven style of the original, letting you crawl around the spectacular scenery of an equally detailed car load. What our friend on at totalxbox.com said: 'A triumph of many respects allows itself to come down with some technical issues and a world that needs more variety in the way it seems. That, however, shouldn't stop you from picking this up and loving it until the end of this console generation. Forza Horizon 2 is an accomplishment, and a display for what open-world racers can do.' Total Xbox.com Rating – 8/10 | Forza Horizon 2 Review | Xbox One, Xbox 360 | Buying it now from Amazon Originally searching for them to be a PS4 launch title, Driveclub has been seriously delayed, for almost a year. But ultimately, the internet-based racer team is here at its next glory—there's its. Making a fairly decent selection of European machines (there's more to come via downloadable content), multiple locations and many content online, Driveclub is one of the best racing games you can buy on the PS4 right now. What our friends on gamesradar.com said: 'While too simplified to be a simple and too serious to be an arcade racer, the Online Driveclub integration, beautiful settings and accessible touches make for a great new-young pack.' Gamesradar.com Rating 4/5 | Driveclub Review | PS4 | Buy it now from Amazon's Ubisoft's massively open adventure racing world has lost ambitions. Essentially, you could explore the entire us of Abe, from New York to LA and everywhere, spend your time completing online challenges and mission history. The completely online game has got a rocky start, but it's hard to deny that the scope of the landscape is impressive. What our friends about gamesradar.com said: 'Take off its vast environment and the Team decides on mediocrity. But the lovely story with huge sense of driving actually, whether alone or solo, means there's so much fun to be had all the same. Gamesradar.com Rating 3.5/5 | The Team Review | PS4, Xbox One, PS3, Xbox 360, PC | Buy it now from Amazon while it's almost a year old, the need for speed: Rivals are still a very impressive racing title, wrapping that classic arcade style we've come to expect from the series. There's a great sense

of speed in Rivals, paired kicks and slick presentations the next-there, massive selection of cars and a variety of online and offline challenges and you've got a class package. What our friends on gamesradar.com said: 'Need for speed: Rivals are an utterly comfortable open world racer. The drive is solid, its streets are a joy to explore, and its racing placement – though a bit repetitive in times – is incentive enough to keep you coming back for more. Gamesradar.com Rating 3 1/2/5 | Need for speed: Rivals review | PS4, Xbox One, PS3, 360, PC | Buy it now from Amazon as one of the exclusive titles for Microsoft's Xbox One, Forza 5 have definitely earned its place here. Forza 5 takes full advantage of Microsoft's Xbox One features One controller, giving feedback to rumble through your finger to the triggers. Players are able to feel the starting engine and edge in the road under their shooting. It's also a real look... Gaming has never felt, or looked so good, put that title in for the gold when it comes to celebrating the next generation of games. Platform: Xbox OneBuy reads now from the Amazon game that rewards players for recovery drive, Burnout 3: Prandown introduces a new game feature that gives bonus play points for breaking up as many cars as possible. Hours of irresponsible fun to be had by all. Platform: PS2, XboxBuy it now comes from Amazon Ok, so it doesn't ban a driving game... But Rockstar's Big Flight Auto 5 had a big impact on banks, with countries marking record-breaking sales. A massive piece of the game involves driving, with the GTA5 world being so expansive, it's a good thing too... The open-world map is absolutely large, and highly crafted, pushing actual consolation to the limits. Rockstar has also introduced a new style of multiplayer for GTA5. GTA Online works as an open world for up to 16 players to cause innocent civilian ravaged and cops. Alternatively, players can give each other enduring grief until someone decides to break into the U.S. Army base, grab a tank and show everyone who's boss. Platform: Xbox 360, Playstation 3Buy it now from Amazon Driver: San Francisco, similar to other games in this style, involving standard-high chaste machines, dodgy shortcuts and law enforcing have simply to break the fun. Unlike others though, drivers: SF let players take control of THE NPC's other cars. This was done by essentially transferring the main idea of this to any other body around him. This feature has added a new dimension to the game, and allows games to change the course of events during courses. It also left civilians twitching out the way they 'suddenly black out.' Platform: PS3, Xbox 360, Wii, PC, MacBuy IT now from Amazon Real Racing 2 made its name as one of the most popular driving games for a mobile platform, being released first for iOS, and android shortly after. A fun game to play, using either accelerator controls, or the touch-screen steering controls. Graphically, it stands as one of the best games available for mobile. Platform: iOS, Android, Mac, Windows MobileBuy IT now from Amazon Formula 1'97, in its prime were the best selling game in the UK, proving to be a great success. It was the first of its kind to put the player in a first-person view of the cabin, complete with dish and flies spattered on the visor. It was also the first F1 game to feature a specific driver on the front cover, and Schumacher appeared on most editions of the game. Platform: PS1, PCBuy it's now out of Amazon EA's need for speed: Underground was your typical game-racer. cars, urban city streets and a ton of good-of fashioned Nitrous oxide. It might essentially be watched as the official fast and furious game. With a cool, varied soundtrack and high-energy race, Underground stands out as an iconic title from the NFS series. Platform: PS2, Xbox, Gamecube, PCBuy it now from Amazon's second Split Disney can essentially be laid down to Mario Kart on steroids. Like, mega steroid. Pitting cours into a battle of the death, Split Second was seen playing tears in trains filling up the masters of the powerplay. This in turn could trigger game event change, causing catastrophic change in the course. A player could trigger a jumbo eye crash, or a large toffle building, making life a lot harder for every other racer behind them. Platforms: PC, PS3, Xbox 360, PSPBuy reads now from Amazon One of the big racing games. Daytona USA made its name as a world famous arcade car, putting players in a driver's seat and behind a wheel circuit. The vast majority of cars came with a few others too, so players could grab their friends and all join in on the fun together. It was a perfect multiplayer experience, providing enduring fun, and can still be found in today's arcades. Platform: Arcade, Sega Saturn, Windows, Playstation Network, Xbox 360 (Live Arcade), DreamcastBuy it now comes from Amazon another old game that brings back some memory. Crushing circuits was excellent fun to play with friends, and one of the first games that gave the player the danger of driving (or being complained) to the edge of the course, leaving any chance to win in the dish. Deck: PS1Buy It's now from Amazon Micro Machines V3 is a gold retro racer and back to its heyday, playing there was a lot of fun with it. The clever thing about it being players was racing cars around a typical area in which kids would play with micro toy cars, bringing imagined races to life. Steps include the breakfast table, a school office, a science lab, a restaurant, the garden, and a pool table. The game also equipped players with varied Mario Kart style power-ups, as well as putting obstacles ahead of them using daily objects, similar acid or syrup turns, with massive obstacles in the form of pencils and spoons. Platform: PS1, N64Buy it now from Amazon to send all sense of achieving out the window, Blur takes racing to a new level of fun with the use of power-ups and extreme vehicle modification. Although developer Bizarre Creation is based on the racer on the Gotham Racing Project engine, The game didn't sell as well as expected, and unfortunately saw the studios close in February 2011.Platform: Xbox 360, PS3, PCBuy it now comes from games Less in a race against cars and more of a race against the clock, Crazy Taxi still deserves a place on the list for its ridiculous addictions-based gameplay. Players go against the look to deliver their selected destination passengers, pulling off deep roots on the road for extra bonus points. If taxi drive was this fun, we'd have to quit our day job by now.platform: Sega Dreamcast, PC, PSN, Xbox Live ArcadeBuy it's now from Amazon Leverage on the franchise Colin McRae, Dirt 2 to make the experience more accessible with the use of multiple difficulty environments, an immersive career mode and rigorous online multiplayer too strong. Platforms: PC, Mac OSX, PS3, Xbox 360, Nintendo Wii, Nintendo DS, PSPBuy it now from Amazon's Kodmasters polished the F1 series to perfection in its 2011 sequence, which does an exemplary job of capturing the Grand Prix realistic. There's a steeth learning curve of buyers, but don't let it put you off: Impressive Physics and a brand new Co-op Championship make this an essential buyer for all F1 fans. Platform: PC, PS3, Xbox 360, Nintendo DS, PS VitaBuy it now from Amazon Marketplace racer hanging in hardcore and loaded racing looks, Forza Motorsport 3 beats off the most competition with its impressive bevvy of cars, trains and fashion games. Many claim this to be the definite racing game. They may well be right. Platform: Xbox 360Buy it now comes from Amazon a conventional non-conventional title that's more than worthy for a mention, the F-Zero X brings the franchise to 3D on the Nintendo 64. The locale? Players race to hover-cars on magnificent structures at incredibly high speeds. Graphics might be today's date, but this still remains the best in the series.platform: Nintendo 64Buy it now from Amazon Take Steps evolves ahead of the racing genre, Grand Prix 4 was the first to introduce realistic rain that racing pit against the components. Later iterations extensively improved the series formula, but Grand Prix 4 remains a fan of that day. Platform: PCBuy it now from Amazon Choose only the First Turismo for our list could be a controversial decision given how date it currently is, but the original still remains the series' vision, rising all we've come to expect from a circuit simulator. For the first time, players were able to experience physical real-life, such as draft and accelerating from a spin. The series will continue to go from strength to strength, and its latest offering, Gran Turismo 5, still offers one of the most realistic gaming experiences on the market.Platform: PlaystationBuy it now from Amazon There's no denying that Mario Kart deserves a place on the list, and the N64 version of Nintendo's ongoing franchise still offers one of the best multiplayer experiences available. With an arsenal of colorful weapons at their affinity, players must use their wisface to fight him out for what covered gold heisman. Platform: Nintendo 64Buy it now from Amazon One word: bike. Rockstar decided to break the mold by letting players race motobikes along with cars, and we honestly can't thank them enough. An impressive street racer in its own right, the DUB edition also allows the heavily modified racer cars. Platform: Xbox, PS2, PSPBuy it's now from Amazon though limited to its in playback cars, EA's urban racer gets a place on the list thanks to its impressive four, gorgeous visuals and fun hunters of police. Critics particularly praised his impressive scenes, the quality of which is almost never seen in racing games. platforms: PS2, Xbox, Gamecube, PSP, GBA, PC, MobileBuy it now from Amazon while fans debate whether OutRun is a racing game or just a game drive, one thing is for certain: the title was largely innovative for its time. OutRun was the first game to use a moving sit-down cabinet in its arcade version, letting players feel like they were really in the car. It also features the use of in-game radio stations, a feature found in the likes of Grand Teft Auto and many other other car games today. Platform: Sega Master System, Arcade, Sega Genesis, PS2, GBA, Xbox (Attached to Shenmue II) With visually-stunning settings and points systems that reward the players for pulling off crazy stunts, PGR4 is a worthy title of Franchise Creation Creation'. Its time effects are also some of the most impressive we've seen in a game to date. Platform: Xbox, Xbox 360Buy it now from Amazon When it comes to video games, the Star Wars franchise has been slightly hit and missing. Luckily, there are a few stylus in the dish, and Episode 1 Racer is surely one of them. Based on the Podracing sport seen in the titillar film, game challenges to play races at strongly high speeds in a variety of cards set at the University of Star Wars Expansion. Platforms: PC, Mac, N64, Sega DreamcastBuy it now comes from Amazon's oldest title on the list but an essential one, Position position launched all the way back to 1982 and set the precedent of racing games to come. The on-car has since been used to almost every racer to date. Nearly 30 years later, we still can't get this theme catch out of our heads. Platform: Atari 5200, PC, Arcade Namco Wars Ridge Racer 7 coincide with the launch of the PS3, showing off the horse power of Sony's new console. Promoting hyper-realistic graphics and the ability to play in 3D, PS3 owners can't go wrong with this one. Platform: PS3Buy it now comes from Amazon It's a well-known fact that at one time in time, every arcade in the world had a copy of the Sega Rally Championship. We just can't decide what we like most about this game: What fact was the first racing game to apply different touches to different route surfaces? The multiplayer co-operative? Voice of overenthusiastic (Game on, yes!)? Ah, just all of it! Platforms: Arcade, PC, Sega Saturn, PS2, GBA, N-GageBuy it now from Amazon All as the first massively open online racer, Atari's 2007 meatbar title line between single-player and multiplayer does not let users communicate in its unlimited online environment. Flawed, but strongly comfortable. Platform: Xbox 360, PSPBuy read now from Sony's Amazon response to the f-zero franchise, Wipeout 2097 sees more anti-gravity madness and high-speed thrill. The Original dropped lacking the split-screen modes that made F-Zero so knowledgeable, but it still remains a classic to This Day.Platform: PlaystationBuy it's now from Amazon
